

				
COURSE SCHEDULE OF LECTURES on PATHOLOGICAL PHYSIOLOGY for the 2nd (20) *year students in specialty 226 Pharmacy, industrial pharmacy Autumn Semester, 2021-2022 academic year				
№	Data	Topic Lectures	Hours	Lecturer
Module 1. General pathophysiology				
Content module 1. The subject and tasks of pathological physiology. The science of the disease. Typical pathological processes				
1	07.09.2021	The science of the disease. Disturbances of the peripheral blood circulation.	1	Ass. professor Ostapets M.O.
2	14.09.2021	Inflammation.	1	Ass. professor Ostapets M.O.
3	21.09.2021	Allergy.	1	Ass. professor Ostapets M.O.
Content module 2. Hypoxia. Fever. Metabolic and tissue growth disorders.				
4	28.09.2021	Hypoxia.	1	Ass. professor Ostapets M.O.
5	05.10.2021	Disturbances of the carbohydrate metabolism. Diabetes mellitus.	1	Ass. professor Ostapets M.O.
6	12.10.2021	Disturbances of protein metabolism.	1	Ass. professor Ostapets M.O.
7	19.10.2021	Disturbances of fat metabolism.	1	Ass. professor Ostapets M.O.
8	26.10.2021	Disturbances of the tissue growth. Tumor.	1	Ass. professor Ostapets M.O.
Total:			8	

Note: Lecture takes place on Tuesday 2st week at 08.30

Department Chairman of Physiology
and Pathological Physiology

Nadiia KONONENKO
